

COOPERATIVE EUROPEAN GRAPEVINE MOTH (EGVM) QUARANTINE PROJECT COMPLIANCE AGREEMENT

EXHIBIT W2- HARVESTER: Hand Harvested Fresh Wine Grapes Systems Approach

Provisions for the Intrastate and Interstate Movement of Hand Harvested Fresh Wine Grapes Produced Inside the EGVM State Interior Quarantine Area

Establishment shall only move regulated articles ***within and from*** the area quarantined for EGVM when complying with all of the following:

1. Ensure the **grower*** is under compliance with the Project.

****Project approved growers can be verified online at:***

http://www.cdfa.ca.gov/phpps/PE/InteriorExclusion/egvm_quarantine.html

2. Fresh grapes must receive a Project approved **post-harvest treatment*** when harvested from any vineyard:
 - a) with EGVM detected by trapping or inspection within the last three EGVM generations, **or**
 - b) located within 200 meters from the boundary of a vineyard with EGVM detected by trapping or inspection within the last three EGVM generations, **or**
 - c) located within 200 meters of an EGVM detection by trapping or inspection within the last three EGVM generations (including find sites in residential areas, orchards, fields, groves, etc.), **or**
 - d) located within 500 meters from the boundary of a vineyard with EGVM detected by trapping or inspection within the last three EGVM generations where mating disruption is being used, **or**
 - e) located within 500 meters of an EGVM detection by trapping or inspection within the last three EGVM generations (including find sites in residential areas, orchards, fields, groves, etc.) where mating disruption is being used.

Project approved post-harvest treatment is required until there are no additional EGVM detections by trapping or inspection for three consecutive EGVM generations. **Project will notify grower of EGVM detections.***

3. Fresh grapes subject to treatment do not qualify for movement under the provisions of this compliance agreement exhibit.
4. Fresh grapes must be hand harvested.
5. Fresh grapes may not include any material other than grapes, such as: leaves, litter, culls, debris, etc. Grape bunches must be trimmed clear of all material other than grapes.
6. Ensure that all equipment (bins, barrels, machinery, gondolas, etc.) used for maintenance and harvesting is thoroughly cleaned of all host material and debris year-round *and* prior to leaving the growing premises.
7. Ensure all employees receive training to be compliant with all specifications of this compliance agreement exhibit.

Shipments found to be in violation of the above stipulations are subject to being held, rejected, destroyed or subject to other prescribed actions at the discretion of the Project.
